Benford sheetfed UV systems offer printers some major advantages over other brands

BENFORD

- Spare lamp cassette and spare lamps with all systems
- Only the best components made in UK, Germany, Japan and USA
- Latest 'simple design technology' is used
- Low maintenance - simple maintenance
- Benfords 'eco UV' energy saving 20% low stand by power reduced running costs
- High efficiency UV output anacoil reflectors 15% higher than dichroic
- Low cost replacement lamps and reflectors

Power cabinet and control

Benfords cabinets are hand made to our specification in England.

They offer:

- Energy saving low stand by power
- Transformers or electronic power supplies
- Fast off and restart of lamps
- Simple to use touch screen control
- Super safe design, with individual rcd lamp protection.

End of press UV

Benfords end of press UV systems are designed using the latest 'simple design technology' offering printers:

- 5 minute lamp replacement
- Slide out lamp cassette
- Air and water cooled options as required
- High efficiency reflector design
- Interchangeable IR lamp cassette option

Interdeck UV

Benfords interdeck UV systems are designed to be light and simple to move to different positions on the press as required. Other features are:

- Low transfer of heat to the press
- Easy to move to other positions
- Fast lamp and reflector change
- Low maintenance and compact design

Service

At Benford we build our systems so that they can be serviced by your own engineers. On the rare occasion it's required, we can send out an engineer quickly.

- We train your staff top carry out 99% of the servicing
- Parts available wordwide from well known brands such as Festo, Moeller, Omron.
- Engineers available fast to any part of the world
- Lamps and spare parts at reasonable prices

Installation

With over 22 years experience installing UV and IR systems on printing machines world wide, Benford knows what works.

- Pre installation site survey for every machine
- Fast installation during a time that suites you
- Minimum press down time
- Complete training for your engineers and printers
